Want to Be A Tribal Messiah?

New Prayer Foundation Being Laid

PRAYER FOUNDATION Good News! Members are rebuilding the prayer foundation for Tribal Messiahship work. Unison prayer is rocking Melford as folks lay a strong, broad prayer base. New Holy Wine was also multiplied and taken home by all attendees.

JOIN THE PRAYER! Every Tuesday night 7-9 pm: we now hold a tribal messiah testimonies and Unison Prayer session. Unison prayer is on the menu! (As well as nourishing testimonies and fellowship) Please join us any Tuesday at Melford. You can even participate from home by phone link. (call Pastor Jim)

OMA DURS, our elder sister pioneer in San Francisco, more than any other local leader built our movement in America. She was far and away, the most successful witnessing leader - ever. Recently she called Japanese members to California for a 3 day Prayer Unison Prayer and Fasting Summit. Her purpose - to bequeath her prayer and fasting success tradition to "mother Nation members ". Goal - break through as Tribal Messiahs, and save America.

SUCCESS POINT, Prayer and Fasting! Oakland member Rick Joswick reports that during their success period, every morning, 21 minutes unison prayer, and every evening 21 minutes of unison prayer was their daily routine. They also skipped solid breakfast every day. They did daily liquid fasting - until lunch time. Done every single day of the week, these spiritual practices created a powerful spiritual condition for success. Combined with hard work and loving outreach and great care of people - ultimately unparalleled outreach success was achieved and many people understood True Parents.

INTENTIONAL PRAYER This perhaps the first time in we have had such specific, targeted, purposeful unison prayer in a long long time. That's though, maybe a good thing! It means this is a tool we have not really deployed before. And the promise of success still holds - if we combine it with strong bold action, courage to meet people and team work.

WE CAN DO IT - Our new motto.
