The Leadership of the Heart Seminar

The Leadership of the Heart seminars are a series of one-day educational and interactive programs created by Women's Federation for World Peace USA, which are designed to help bring out the powerful leader that is within each person.

On Saturday, July 7th we'll be talking about "Discovering and Empowering the Leader Within" which is part one of the series. This first part focuses on personal leadership, on how the way we think and act as individuals can have a positive impact on creating peace in the world.

We will begin by thinking about what it means to be a leader, and then what it might mean to be leaders of the heart. Our hope is that by the end of the day you feel empowered to know that you are already a leader of the heart and that you can make a positive difference exactly where you are in your home, work, or community. You will gain some specific tools and principles that you can apply to your own life as soon as you leave the seminar.

Topics that we will explore:

- WFWP areas of impact and current projects - in the US and internationally
- Feminine and masculine leadership
- Spirituality and connecting your passion to a higher purpose

We look forward to seeing you there!
