

## At MSG, I felt True Mother's heart embracing and taking care of all humankind

Keiko Breland  
July 15, 2017

I felt so much of True Mother's heart. She is really embracing and taking care of all humankind, not just by words but with entire heart. It is not something only I felt, as other people felt it, too.

My husband and I had lunch with a University of Bridgeport employee who attended the event with his wife. The employee said that he felt True Mother's sincere heart so much. He was even more excited than we were talking about the 21-Day Peace Challenge. He wants True Mother to continue and expand her influence to the world.

The whole program was so inspirational. I am sure that everybody felt God's loving presence in that place. The 2,000 Voice Choir, Apple Heaven United, and Grammy Award winner, Yolanda Adams, electrified the arena.

So many young people filled the stadium and danced to "Mujogeon (Unconditionally)." From a professional standpoint, the performances, video, and lighting were perfect.

My husband and I brought eight guests to the event. They all had a wonderful experience and were very impressed by the program.

I had just come back from Japan a week prior to the event, so I was surprised to meet so many people from Japan at Madison Square Garden. I had been on tour with the Unificationists from the Los Angeles chapter of the Collegiate Association for the Research of Principles (CARP). I also met various Unificationist leaders and followers in Japan and Korea. They all, without fail, came to this important event. We will remember it forever.
