

Moldova FFWPU Offers Parenting Training

Mihai Calestru - April 21, 2019

FFWPU members in Moldova organized a talk on parenting, which was presented in a local public library on April 21. The guests were all families living in the same community.

The event allowed us to introduce Family Federation to this community. The mayor of the village greeted everyone in the audience and stayed to listen to part of the lecture on parenting.

Andrei Esanu, the president of Family Federation in Moldova, gave the presentation, which included advice on creating a model community. The presentation was warmly welcomed.
