

# “Forgive, Love, Unite”

## Let’s follow True Mother and revive our country, all together, united in heart.

Rome, Italy, 7. September 2014

*Report on two full days for the members of the Italian movement of the south (September 7<sup>th</sup>) and the north (September 14<sup>th</sup>), to convey True Parents latest directions and strategies to fulfill the “Vision 2020” Providence.*

**A**round 60 members, from Roma and Napoli, and 120 members mainly from Milano and Bergamo, plus all pastors, gathered to receive a broad report of the last National leader meeting in Korea, at the time of the anniversary of True Father’s Seung Hwa.

“Forgive, Love, Unite” was the title of the speech given in the morning, based on True Mother’s word at the World Peace Center, Sun Jin Nim’ speech to the National Leaders, and the introduction of Rev. Kim Man Ho at the beginning of the NL meeting.

In the afternoon, in the three sessions we went through the internal and organizational aspects of the main presentations given in Korea, on strategies and Tribal Messiah’s mission. At the end of each session we had a half and hour debate, in which everybody could feel free to comment, ask questions, give suggestions on the topic just presented.

The last presentation and debate dealt with the topic of reforming the structure, activities and procedures of the entire Italian movement, with the intent to get closer to the heavenly constitution and the

providential requests of this time. It was an on depth analysis of the real possibilities we have in Italy to support the True Parents’ centered effort to build a new culture in Italy and support the International and European providence.

The participation was really large in quantity and quality, over the expectations, since we are coming out from some difficult time for various reasons, internal and external to the Italian movement itself. Once more the Italian members demonstrated their love for God and True Parents and their desire to follow “the Heavenly way”.

It was so encouraging and uplifting! Everybody felt like going back to the missionary time in which we were all completely involved, heart, soul and body in the providential work. We have a strong desire to support now, focusing more on the Divine Principle understanding and teaching and reorganizing entirely our movement, especially involving the young members. Particularly wonderful was the participation of many 2nd generation members that, not only attended, but also participated actively to

the discussions, giving ideas and sharing feelings and hopes.

One of the topic conveyed was about the importance to bring happiness to our families and conveying this happiness to the people, as a testimony of gratitude and love for the life we received from God and True Parents. This will be our main effort from now on. To many struggles, pains and negative news influenced our life in the recent past. We wanted to commit ourselves to a new life of joy in serving God, True Parents and the world, as a way of life, not only as a way to bring people on our side.

We are all aware of the enormous potential of Italy as a country of witnessing, as it was in the past and

we absolutely want to go even over the past results, by sharing a life of dedication and common love for each other, with passionate heart and joy.

We concluded with a prayer and singing together “Tongil”, with much hope and a new family spirit.

I’m very grateful to the Heavenly Parent and True Parents, for giving us the chance to be in such important position as Blessed central families, at the core of the providential effort of bring back all God’s children to the original place, while, on the same time, aware of the huge responsibility of being the “leaves that heal the world”.
