

National Blessed Family Department Meeting

Milano, Italy, 21. September 2014

In addition to the national leaders, Angleo Chirulli and Elisabetta Cali, there were present representatives from Milan (2 couples), Bergamo (2 couples), Padova, Turin, Rome and also Naples (via Skype).

It was very interesting and rich with content:

- -they were given reports from the recent seminary in Korea with the international BFD
- -the most recent directions from True Mother, and from Sun Jin Nim
- -they reconfirmed, and recalled the BFD's duties, including; taking care of couples, collaboration with the pastor and the department of education.
- -we reiterated the importance of helping and stimulating parents and children through the matching and blessing process. The conditions and the necessary preparations for this important stage of life were newly explained. Also, a new handbook on the matching process made in the US was presented.

- -the importance of connection between the 1st and 2nd generation
- -the next Pure Love Ceremony in Italy will be organized
- -a possible celebration of the 50th Anniversary for the foundation of the Italian church next year.
- -the intimate relationship helps us understand ourselves, the joy you find knowing yourself by giving to another, the importance of reaching true absolute sexuality in unity with God.
- -the importance of arranging meeting between brothers-brothers and sisters-sisters

It was an important occasion to share our experiences and find support and backing in our important duties. The meeting was interspersed by many questions and answers which helped clear many points and to re-start our way even more united together.

Elisabetta Cali.
