

## Family Federation – San Marino

Sunday, November 27, 2016 we celebrated a Wedding Blessing Ceremony.

Participants were two couples plus a widow lady who made the wedding with her husband in the spiritual world.

Almost the entire community participated. There were three generations of the same family. Grandmother, mother and granddaughter.

We carried out a presentation on the significance of the family, the blessing and the change of blood lineage.

Then, we performed the ceremony itself. A couple had already begun the forty-day separation period and the other is going to start. The widow, few days ago, dreamed of her husband for the first time, and he was very happy.

The atmosphere was very joyful and spiritual. After the ceremony, we celebrated with a lunch. We were twenty-one people with two children of the third generation. Below are some pictures of the ceremony.

We felt that where is the desire of True Parents to bless humanity, there is the heavenly spiritual world. The event was an inspiration for the whole community to offer the blessing to their own contacts, friends and relatives.

**These new blessed couples were so much thankful for the beautiful ceremony and blessing received.**

We felt that this ceremony was a new beginning for all of us.  
That the spirit of God will descend upon each of his children.
