

## WFWP Bergamo/Italy presents the 'Emotion Code' and 'Body Code'

Elisabeth Ciacciarelli

April 30, 2016

“Our president, Giannina Figus, after a brief greeting, introduced our guest speaker, Franz Kerschbaummayr.

He gave us an introduction about ‘The Emotion Code’ by Bradley Nelson.

Franz explained that he had practiced this method successfully first of all with his own daughter when she was 5 years old. She had an illness for which traditional doctors would find some treatment but only with temporary results, and she was told she would have to take medication for the rest of her life.

This method, he said, is based on the fact that most ailments are caused by ‘trapped emotions’; we may well have forgotten them but they still exist in our body and make us suffer.

Franz's explanations were quite practical and the audience was very interested and enthusiastic!

Many participants were interested to find out out more and requested a follow up course.

The next course will be organised in September, and those who wish may as well ask for a personal treatment by Franz.”
