Dear Family Members,

Heavenly Parent bless you!

Over the last two and a half months, we embarked on an incredible journey together with the Blue Dragon Tour, visiting 10 major locations across America and reaching many more through online participation and out-of-town attendees. Our mission was clear: to deeply unite with True Mother by learning the Truth of the Providence, and to blow away the negative spirits of the past.

Each stop on the tour was a profound experience. We came to know the essence of True Parents more deeply through True Mother's words and were blessed to participate in the special great works led by Dr. Ki Hoon Kim and the Cheon Shim Won team. For many, the highlight of each visit was undoubtedly our Best Sunday Service Ever, where our youth shone brightly. They were leading not only the Sunday service experience, but the entire event, including the evening prayer vigils. These evening vigils were powerful moments of awakening, bringing new members together, and revitalizing our community.

The tour also included an adventurous pilgrimage to Korea, where we brought 420 participants, including 50 new members and ministers from the ACLC group. This pilgrimage was a testament to our commitment and to the strength of our united efforts. The reflections from those who attended are still pouring in, and they continue to inspire.

I just wanted to say thank you. Your contribution to the Blue Dragon Tour, whether through prayer, attendance, participation in Korea, donations, or other forms of support, was invaluable. This truly was a national offering, and it could not have been achieved without your dedication and hard work.

Thank you and congratulations. I know how much effort it took to achieve so much in such a short time, and I believe we have made True Mother proud.

Together, we have expanded the foundation to clear the shadows of the past and prepare for the Entrance Ceremony to Cheon Won Gung in April 2025. Let us continue this journey with the same spirit of unity and dedication.

I expect the coming months to be full of growth, as we share Heavenly Parent and True Parents' love with many more people, who will come to experience Cheon Il Guk together with us.

Also, it seems a lot of people really like the Blue Dragon theme. It is kind of cool. As the Chinese zodiac of this year, that is the symbol that True Mother mentioned brings the spirit of blowing away the negative energies of the past, allowing us to renew and rejuvenate. I wonder, what will we do next year with the year of the green snake?

Thank you again for your support and participation.

With heartfelt gratitude,

Rev. Demian Dunkley
