Release the Mother of Peace

On September 22, 2025, True Mother was unjustly detained in South Korea, marking a clear violation of religious freedom. True Mother is among several notable religious figures being targeted by the new South Korean government. This situation transcends one individual—it's about safeguarding freedom itself. If you value freedom, stand with the Mother of Peace and help raise awareness about this injustice. She has devoted her life to promoting global peace and fostering reconciliation among nations, religions, and diverse communities. Let's unite to liberate the Mother of Peace. Join the cause now!
