No Bail Ruling: Mother Han's Health at Stake

The major news agency News1 reported that a separate bail hearing was also held for the 83-year-old religious leader, widely known as Mother Han. According to the report, she told the court:

"I need to take medication, but I cannot do so without assistance; I am unable to do anything on my own."

Mother Han has been held in detention since September 2025, spending her time in a small cell. However, serious health problems led to the suspension of her detention in March 2026 to allow her to receive urgent medical treatment.

At the bail hearing, she asked the court to allow her to continue receiving treatment while living at home.
