World Scripture Building Bridges Between Us

What is Tao?

This is an exciting but not easy-to-answer question!

The Slovak dance trainer Milan Kozánek tried to explain some aspects to the audience in our Peace Embassy. He described his spiritual growth, leading him to ancient Chinese philosophy.

Visits to China and Taiwan showed him the difference: In the communist-ruled state, ancient knowledge is only accessible to the public in a reduced form; in Taiwan, the original tradition has been preserved. In joint projects with Chinese colleagues, he tried to infuse Tao into dance performances.

The series "WORLD SCRIPTURE building bridges between us" will be continued in 2023.

It is an excellent forum for getting acquainted with foreign religions and traditions.
