The Family Federation of Norway held an information stand in the busy main shopping street of Oslo Saturday 3rd November, well stocked with essential tools for winning the spiritual battle.

We had a filled book table with all our latest publications and a display with 12 large posters.

Good response from persons wanting to know more.

The series of six booklets introducing the Divine Principle made in Germany are excellent for handing out.

Also, we made a new 16-page booklet introducing the concepts behind the Blessing.
