

Peace Starts With Me - America will be restored through its Christian foundation

Heidi Iseda
July 15, 2017

The "Peace Starts With Me" event was a great reminder for me on how America will be restored through its Christian foundation. As True Father taught us, America represents World Christianity. That is why it was so crucial that the main mover and supporters and attendees were Christians (though other faiths were embraced as well) from all races and nationalities and denominational backgrounds.

Thank you to all those who worked so hard behind the scenes starting from our leadership and of course True Father supporting from the spiritual world, and True Mother, whom you can feel the seriousness and the love from, while sharing God's message. It was a blessing to be there in person representing my family as well as one of our daughters at the Hyojeong workshop.

It was great to be at Madison Square Garden for the second time since the 2075 couples Blessing where I was a participant, and to meet many brothers and sisters I haven't seen in decades. It was truly a great reunion. We are one family in heart under God!
