

## Sanctuary Church vs. The Way to Peace

Sanctuary Church is going against the way of peace, Hyung Jin, Kook Jin and Yeona Nim are the false king and queen if Sanctuary Church.

Sanctuary Church:

### THE WAY TO PEACE

*There is no way to Peace, Peace is the Way... Judging is not!*

"True Parents are our **eternal King and Queen of Peace!**" Their way of life examines that -- wherever they went, they brought Peace and Unity. That shows their level of heart is way above 500-600. We cannot say that's the case with Hyung Jin. He still needs a lot to grow in his heart, because doubt, fear and resentment are very low heart resonance.

Dr. David R. Hawkins is the one who made the study on the Resonance of Heart. And he gave these points as very important if we want to reach Peace outside and in ourselves:

- Let go of wanting to 'get even'
- Let go of wanting to be 'right' and make others 'wrong'
- Practice discernment rather than judgementalism

Dr. Hawkins shows how to instantly tell truth from falsehood about anything. And truly, 'muscle testing' clearly shows Hyung Jin is not on the way to Peace. His resonance of judging, labeling, fear from conspiracy etc., are obviously under the level of 200. This is on **formation level** (Middle spirit world), under the physical mind (animal level). That's why they feel pleasure in judging, ridiculing others and calling them bad names.

Hyung Jin attracts people with the same low level of heart. **With his hate-talk** Hyung Jin stirs such a resentment in his followers, that in one country it ended with the death of a mother of 4 kids, attacked by SC resentful members. That reminds us of the past, when hate talk of Catholic priests against the Jews, led to violent attacks on synagogues and Jewish women and children. Is Hyung Jin proud of this? Did he apologize? Did he stop his hate talk? No! He showed no remorse!

COMMENT: "Oh my god, this is so sad, I can not stop crying, because I feel God is crying so much about sanctuary church"

### SC did not enter the Age of Cheon Il Guk

We live in a historic time, after the coming of Cheon Il Guk. **The world needs a Revolution of Heart** and Conscience. We have a lot of job. Around **75% of the people** are on a level of resonance under 200. SC represents them. For example, Radical Extremists are at resonance of 160. Marxism is at resonance of 130. That's why even Harvard University has resonance of 180, because of socialist-marxist, materialistic influence.

Self Is	Eighteenth	7000	Justice	Ang	Conscience
At-being	Perfect	Peace	600	Bliss	Illumination
One	Complete	Joy	540	Serenity	Transfiguration
Living	Benevolent	Love	500	Reverence	Revelation
Wise	Meaningful	Reason	400	Understanding	Abstraction
Kind	Harmonious	Acceptance	350	Forgiveness	Transcendence
Inspiring	Hopeful	Willingness	310	Optimism	Intention
Enabling	Satisfying	Humility	250	Trust	Release

**Until 1988** the world was on the level of 190, but after the World Olympics it suddenly jumped to 204. You see how measuring this resonance corresponds to what Father explained and did, to change the world. You can actually understand the Principle much better.

Good Churches are at the **level of 300**. That's the level of hope and optimism. Such members don't get negative. Of course members are disappointed and complaining, when their own level is way under 200.

Observing them you can understand why it is difficult in the Middle spirit world to give hope to people. They are miserable, that's the resonance of their own heart, but they blame it on those who are higher in resonance.

We are responsible to change the world towards goodness, love and peace. The only way is to grow our own level of heart to that of Love and Peace (500 to 600). People with that level of resonance of heart automatically raise the level of millions other people around. So **changing the world is changing ourselves**. It starts from inside, not outside.

### Spiritual testing of Hyung Jin's level:

With spiritual testing we could calibrate Hyung Jin's **resonance of heart at 180**. This is the level of conscience of predator animals (170 to 180); feeling pleasure and enjoying in hurting others. But that's his average level. At the chart below, we see that his emotions of **blame and desire for vindication, fear and anxiety** (seeing conspiracy everywhere) go further down to 100 and below. In his anger and hate he goes to 150. And in his pride he resonates round 175 (full with scorn). Let's realize we all have to clean up our hearts from such low emotions.

Emotion	Level	Resonance	Emotion	Level	Resonance
Jealousy	Depriving	Fake	175	Scorn	Infatuation
Vengeful	Abominable	Anger	150	Hate	Aggression
Dwelling	Disparaging	Desire	125	Grieving	Enslavement
Hostile	Frightening	Fear	100	Anxiety	Withdrawal
Unhappy	Tragic	Grief	75	Regret	Dispondence
Contemptuous	Hopeless	Anti/hated	50	Despair	Abilectation
Vendictive	Fil	Guilt	30	Blame	Destruction

Remember Truth is above 200. Under 200 we are dominated by the physical mind (animal nature). Such negative emotions are all toxic for your spirit and body. Hyung Jin's vibration of 180 is the Resonance between **fear and pride**, still under the level of spiritual development. Or we can say, Old Testament level; "Eye for eye!"

COMMENT: "I speak with SC members daily, and can confirm that their energy level is low. They cannot witness, they only speak within their little circles.. addicted to conspiracy theories, and they have a hard time thinking rationally. They make me tired.

**Here we did some further spiritual testing:** "Should we follow Hyung Jin?" No! "Is his way of judging and labeling good?" No! "Is Hyung Jin doing something good with his deviation?" No! "Will Sanctuary Church bring anything good in history?" No!

"Is Hyung Jin a true king recognized by God?" No! "Does True Father approve of what Hyung Jin is doing now?" No! "Does Hyung Jin understand the responsibility of that position?" No! "Are there historic reasons for his deviation? Yes! Is it from True Mother's failure? No! Is it from past historic problems -- reappearing? Yes!

### Hyung Jin teaching against Father

In his video Hyung Jin called Father's tradition of Tithing -- **Satanic**.. and accused the way Father structured our movements as **Totalitarian**.

**Father** -- "*Tithing is eternal tradition*" -- Filial heart and Gratitude (resonance of 250)

**Hyungjin** -- "*Tithing is Satanic*" -- Go rebellious and negative (140)

At the end of another sermon HyungJin said that Father gave us the word "*I as a owner of Cheon Il Guk*.", and then he **makes a mockery of FFWPU** pledge, that according to him is to recite "*I as a slave of Cheon Il Guk*."

**Father** -- "*Era of Religion has ended*" -- FFWPU (resonance of 600)

**Hyungjin** -- "*I don't like FFWPU*" -- Go back to Religion (under 200)

**Father was still alive**; At that time H2 already misused old words of Father to rearrange things in his own way, against Father's more recent changes. He was doing this behind Father's back, but using True Parents' name to claim credibility. Such documents are now coming out. Read more...

### How to develop our Hearts?

The resonance of unconditional love is 570. We are all striving to reach to that level of spiritual development. Definitely, **Tribal Messianism and witnessing** are the best and fastest way we grow our hearts. No wonder people with higher Heart Resonance love witnessing. Wherever I go, I naturally meet prepared people, open for the Truth. My high resonance easily attracts and raises the resonance of people I meet.

Why sects, like Sanctuary Church and others who deviated in resentment before them, **left witnessing aside**. Simply said, their resonance of heart is so low, so they cannot attract anybody, but just other resentful members. As a result, their fallen nature starts rationalizing and creating philosophy excusing their behavior. That's why we see SC arduously trying to reverse Father's words in some very wired and

twisted way. But laws are Universal. What they do is obvious!

**Father's way** was the way of unification; bringing peace and harmony. But Hyung Jin's way is the way of division, bringing resentment and antagonism. SUCH A BIG DIFFERENCE Hyung Jin failed to inherit! Read.. Sanctuary Church going against the way of peace, teaching Judging is the Way to follow and that rebellion 'leads to progress'. Read Hyung Jin Replacing True Father's Teachings with MARXISM

In our hearts we so much want to love Hyung Jin. People who are above 200 will feel it.. will help them grow. While people on low level of 180, will drag you down -- takes so much time and prayer. In that low resonance they are dominated by evil spirit. Our attempts only bring to contra-attacks. That's not a reason to give up. I appreciate and use that. That's the resurrection process for these spirits. We live in Cheon Il Guk, everyone will be liberated.

**Surely we don't need to spend much time focusing on Sanctuary Church**, but definitely we have to be at the level of discernment of true and false, and educate our members, especially the sec. gen. of why judging, resentment, gossiping and spreading hate and division are not our way. **Our way is the way of Peace and Unification**; Living for the Sake of Others and fulfilling our Tribal Messiah Mission.

**Yet I believe that with Repentance, Forgiveness, Gratitude and Love from our side; taking responsibility for what TC made mistakes, as our own, we can heal them. I know, these forces have amazing power! Only love can resolve all problem! Let us learn to resonate with God's highest love and liberate God and True Parents! Aju!**
