

## WFP Albania - Practical Applications of AI - Educational Course in 3 Sessions

Katerina Minolari  
March 11, 2026

During February and March 2026, in the city of Fier, Albania, the Albanian Federation of Women for World Peace, organized a three-session training course on Artificial Intelligence (AI). This course was designed specifically for women and included participants from different categories, including teachers, small business owners, and individuals interested in applying AI in daily and professional life.

### Session 1 - February 18, 2026

#### Topic: "Discovering Artificial Intelligence: Understanding The Basics Of AI"

The first session focused on introducing the fundamentals of AI and its potential applications for teachers, individuals, and businesses. Lecturer Nikki Jerusalem Gjeloshgjakaj presented foundational concepts and practical examples of how AI can be used in daily and professional life. 22 participants attended this session (including staff), among whom 3 were AfPs.

Participants gained a clear understanding of AI basics and potential applications. The session was marked by active discussions, new ideas, and inspiration.

## **Session 2 - February 26, 2026**

### **Topic: AI in Teaching and Learning Processes**

The second session was dedicated specifically to teachers, exploring how AI can support teaching and learning processes. Participants explored tools such as Khan Academy, particularly Khanmigo AI, gaining practical knowledge for classroom use. 6 teachers participated in this session, including 2 AfPs, who expressed enthusiasm for integrating AI into teaching and for creative approaches to documenting the learning process.

## **Session 3 - March 11, 2026**

Topic: "How to Promote Your Business Online Using AI, Even Without a Large Social Media Following"

The final session focused on small business owners, helping them use AI to promote their businesses online, create content, and manage marketing and advertising. 7 participants attended (including staff), among whom 2 were AfPs. Business owners highly appreciated the practical aspects of the session and expressed gratitude for the new strategies learned to expand their online presence using AI.
