

Visit of Special Emissary Lan-young Moon and No-hi Pak to the Slovak Republic

Bratislava, Slovak Republic, 14. -16. July 2014

Members of the Unification family in Slovakia were very happy to receive the True Parents' Special Emissary Dr. Lan-young Moon and her husband Mr. No-hi Pak in Bratislava.

After short sightseeing tour through the city of Bratislava there was rich programme prepared for our guests in the National Training Centre in Dunajska Luzna. Delicious Korean lunch prepared by our Japanese sisters and then meeting with several leaders. This was a good opportunity for leaders to introduce their work and activities, and an open and honest discussion about the situation of the movement in Slovakia. Present were also some of the first members who joined more than 40 years ago. Dr. Lan-young Moon, the long time international president of WFWP, was invited to the National meeting of WFWP Slovakia in November this year by the president of the WFWP Slovakia.

Special guest of this meeting was Ambassador for Peace and member of UPF Global Peace Council Archbishop A. Bacinsky who spoke about his personal way of studying the teachings of Rev. Sun-myung Moon. Dr. Lan-young Moon explained about True Mothers' Vision 2020, and especially about the mission of the Special Emissary.

In the evening there was a meeting with members. Special Emissary Lan-young Moon spoke about her 60 years of attending the True Parents, the personal testimony which was very inspiring for our members, and created an atmosphere where everybody could feel the presence and heart of Heavenly Parent and True Parents.

Next morning our guests shortly visited the Peace Embassy building currently in reconstruction, and then their journey continues to the next stage Budapest, Hungary.
