

Update on Four Unificationists in Volcano Eruption in Japan

Myungho Moon
October 14, 2014

As you already know there were four Unificationists [2 first-generation and 2 second-generation] among those who went missing when the Ontake volcano erupted in Nagano prefecture, Japan on September 27, 2014.

We want to inform you, that according to Unification Church Japan HQ, unfortunately all four members passed away on that tragic day. Each of those four families held a Seonghwa ceremony separately for their loved ones. In the meantime, True Mother sent a condolence message with a painful heart to members in Japan, and especially to those four families.

Let us pray for these four beloved members to have a blessed and happy new life in the spirit world.
