

# Visit of Dr. No-hi Pak and Dr. Lan-young Moon

Les Ulis, France, 1. – 4. May 2015

By Jean-Francois Moulinet

France had the blessing to receive the visit of Dr. No-hi Pak and Dr. Lan Young Moon as True Parents' Special Emissaries to Europe.

On Friday, May 1st, they met the main leaders in the HQ in the morning and could gain an understanding of the main activities in France.

Then in the afternoon was organized a meeting with sisters and about 25 came. At first every sister introduced themselves and then No hi Pak and Dr Moon shared some stories they had with our True Parents.

On Saturday, May 2<sup>nd</sup>, they attended a special workshop on Tribal Messiahship organized in the Chamarande Training Center. There were more than 40 participants in the workshop and the presence of Dr. Pak and Dr. Moon brought a different atmosphere from what we usually create.

The schedule consisted of two conferences based on presentations given during the Assembly in Korea, such as: "Heavenly Tribal Messiah a Western Perspective" and "A Brief Study on Global Standards for the Completion of the New Tribal Messiah Mission".

And there were three sessions of testimonies followed by time for questions and answers.

**Panel 1.** - Home-town Activities

Thierry Martin presented the work he has done in his hometown.

Jean-François Moulinet spoke about how genealogy can help to recreate family connections

Philippe Jacques (National Leader for Belgium) presented his Small groups activities and the Excel file he created to follow our contacts.

**Panel 2.** - Professional and Associative Activities

Marie-Christine Odent explained how she could find spiritual children through her work.

Hanna Lotterie explained how she could develop the local FAVORLU association to help members make a first connection with our activities through promoting Family values.

Hisako Moulinet presented the Japanese cultural activities developed by the Sakura Club.

**Panel 3** - How Providential Organizations can support Tribal Messiahs

Jacques Marion (UPF-France President) moderated the session.

Kathrin Plane gave a testimony on the WFWP-France activities.

Gérard Bourget commented a video to compare the Tribal Messiah mission to the growth of Chinese Bamboo: no external result for many years, and then quick growth.

Patrick Jouan (UPF-France Vice-President), explained how UPF-activities could help the Brittany Communities work especially with local associations.

Dr. No-hi Pak and Dr. Lan-young Moon offered the concluding remarks.

On Sunday, May 3rd, during the general Sunday Service, Dr. Lan-young Moon shared a moving testimony about her 60 years following True Parents. Members were surprised and impressed to hear the direct testimony of someone who remained a disciple during the difficult years of the late 1950s. Dr. No-hi Pak then gave an inspiring message in which he insisted on the importance of taking good care of our children as we go out and look for spiritual children. Dr Pak and Dr

Moon concluded the service by singing “You raised me up” and a Korea song.

In the afternoon, they went to pray at the Holy Ground that True Father established in 1965, exactly 50 years ago.

Thank you Dr. Pak and Dr. Moon for your encouraging words and the love you conveyed on behalf of True Mother!
