In the golden age of Asia, Korea was one of its lamp bearers, and that lamp is waiting to be lit once again. For the illumination of the East, the poet Tagore wrote this quote almost a century ago. The "Korean wave" (Hallyu) is a lamp bearer of Korean culture to the global community, sharing Korea's rich culture and traditions. By promoting understanding of the history shared by both Koreas, the International Media Association for Peace seeks to promote their destined unification.
