### International Media Association for Peace: Victory Over Communism Strategies for a new generation

**Tuesday, May 27, 2025 @ 2-3 PM EDT**

The dark history of communism's political suppression, persecution, and violence is not being taught in public schools today. As a result, 28 percent of Gen Z now hold a favorable opinion of the term "communism" compared to just 6 and 3 percent for Boomers and the Silent Generation. 18 percent of Gen Z thinks communism is a fairer system than capitalism. Western Media are in many ways contributing to this ideological shift, and disinformation from foreign actors also plays a contributing role. What efforts are being made to respond to this challenge? Will the next generation be prepared to defend their hard-won freedoms and human rights?

Join **Ken Pope**, Senior Fellow at the Victims of Communism Memorial Foundation; **Bill Gertz**, Author; national security correspondent at The Washington Times, with moderator **Peggy Yujiri**, executive director of Universal Peace Federation Colorado.
