

## Sasamoto DP Training Centre: Renovation

Kayoung Kim Patriciaz  
July 30, 2014

Help us return our Divine principle training centre to its former glory  
Kampala, Uganda Community

Contribute at: <https://www.indiegogo.com/projects/sasamoto-dp-training-centre-renovation>

### Introduction

Busabaala Divine Principle and Character Education training center is located 11km off Kampala-Entebbe highway in Wakiso district in Uganda. The facility is situated on 8 acres of land along the shores of Lake Victoria.

This land was purchased by the pioneer unification church missionaries to Uganda and with contributions from our Ugandan community a Divine principle training centre was constructed on this land.

Above- Uganda family attending one of our church holidays

The facility has long conducted many workshops in divine principle and character education with many people have changed the various youth empowerment workshop.

Photo above was taken during celebrations of Heavenly Parents Day early this year

**Nice views of the Centre**

Photo showing centre from a far. All this land belongs to the centre

Uganda family members fetching water for a shower

### **The December 2nd generation Unificationist + youth workshop**

We the 2nd generations and the youth of Uganda have organised a 21 day workshop at Busabala DP training centre for 2nd generations Unificationists and willing youth from all across Africa. We have so far received confirmation from Kenya, Rwanda, Ghana, Zambia as we await more confirmations.

Above Youth, 2nd gens and young couples after attending a one day seminar at the training centre

This workshop will concentrate on educating these young people on strengthening their relationship with Heavenly Parents, True Parents and fellow brothers and sisters. It will also aim at living a Cheon Il Guk citizen lifestyle, discovering talent, living for the sake of others, tradition, games and sports, unity, personal experiences and Divine principle study,

A simple African gathering after the seminar

As we prepare for this amazing workshop we face a big challenge

### **The Challenge**

Currently the facility is a depleted state which requires financial assistance revive the glories of the facility as we prepare to hold a major workshop for the 2nd generation unification and youth from all over Africa come December.

- Everything in Busabaala D.P training centre is **old**, or **missing**.
- The facility currently has one small pit latrine shareable between ladies and gents , and one a bad day .... we have to make a queue :)
- The gentlemen lack a shower room and have no option but to use the lake for a quick shower.
- The ladies bathroom is small, and needs enlargement to accommodate as many ladies as possible.
- As a Training centre, the facility needs to be equipped with clean water supply system. We are so close to a fresh water lake(Lake Victoria) and we only need to install a water system so that workshop participants and the general busabaala village community.
- The main building at the centre needs a new roof, windows, doors, rewiring electricity, painting and ceiling board.
- We also need to fence off the facility from intruders. Most of the intruders have been brought to justice, but more keep coming.
- The photos below shows a perimeter wall built in the centre land by intruders who after a struggle lost the court case

A close view at perimeter wall built by intruders in the centre land

### **What We Need**

With your help, we can raise over \$21000 towards the redevelopment of Busabaala DP training centre, so that we can make it a much much better learning environment for 2nd gens + youth that will participate in december workshop, and all the workshops that will follow.

### **Other ways to give**

- Tell your friends and family about this amazing project
- Spread the word and engage with us on Facebook  
<https://www.facebook.com/youthfederationuganda>
- Spare 12 minutes to pray for our efforts

**Have a question or two?**

Find us on Facebook <https://www.facebook.com/youthfederationuganda>
