

Sunday Service & New Witnessing Tools

James Powell

One of the reasons why I enjoy meeting with my she-koo (family members) on Sundays is to feel Heavenly Parent's love substantiated to a higher degree; in our expanded family, our community. Sharing a spiritual three course meal with other blessed families is just one of the best experiences of my week.

Following a spirit-filled session of singing and the opening prayer, Pastor Ron spoke about the upcoming youth ultimately taking over leadership of the Movement, emphasizing that they are the key to the future of everything that True Parents and the first generation have toiled for. It was inspiring to witness the trust, embodied in those words, that the first generation has for the next generations.

In addition to this week's sermon, Pastor Ron presented new and attractive display banners that can be used for services as well as witnessing or lectures. Also presented were new witnessing leaflets that compliment the banners. Pastor Ron expressed his heartfelt thanks to brother Jason Parsons for his patience in working with Ron during the design process, even being able to make changes at the very latest stage before printing.

New revised editions of the *Cheon Seong Gyeong* and *Pyeong Hwa Gyeong* (Heavenly Scriptures and True Parents' Speeches) were handed out to families, along with new editions of the Wales Song Book which includes the Cheon Il Guk anthem as well as many new additional songs compared with the previous edition.

Reports were given and elder sister Ruby Flavel proudly testified to the efforts of her husband, Clive, who is currently in hospital and has been witnessing the staff there, saying that he's given copies of True Father's autobiographies to interested members of staff.

It was a very enjoyable meeting of families and I look forward to the next one!
