**Reflections**

Mr. Alphonse TEKATA, representative of the mayor said “I am pleased that local authorities were invited to attend the ceremony. I am very amazed at what I saw and heard at this ceremony. I firmly believe that the solution to the problems of whole mankind and of our country which has particularly experienced political-military troubles can be solved by a stable family in which children receive a good education. I would like to thank the team of the Family Federation for World Peace and Unification. I encourage the FFWPU / CAR to continue the work and extend it throughout the whole Central African territory. I will make a faithful report of all that has happened to the Mayor and the Deputy of the locality ”

Pastor Nestor NDJOTENE, Founder of the Church said: “I thank God for allowing this blessing ceremony that I have wished for 30 years. We will continue to work with the Family Federation for World Peace and Unification in Central African Republic. ”
