

Peace Blessing in Buddhist Style for Kalmyk People

Moscow, Peace Embassy, Dmitry Samko, August 19, 2018

On the 19th of August we had a second Blessing for Kalmyk people. Two couples have been Blessed and 2 women without husbands.

This Blessing was special because from the beginning we invited couples to be Blessed and explained that the 49 days separation period would be started after the ceremony. This was one reason why not many couples came. Beside the summer season another reason was that in social Kalmyk new work some negativity have come about Sanal and his connection to UC. So we will have to deal with it step by step.

One more uniqueness of the ceremony was that we did it following Buddhist rituals. For example, we used a special Holy drink of Buddhist people - Arshan. It had Holy wine inside. Also before pledge Lama Sanal made a special prayer calling God, angels, ancestors that all people have pledged very honestly and sincerely. After the Indemnity Stick ceremony 2 couples were again strongly asked to start 49 days separation period. Buddhist people respect number 49.

As a conclusion we could see that through Heavenly Tribal Messiahs activity and Blessing we can help religious people to become more sincere believers of their faith. I see that this way later they may naturally accept True Parents and mission of FFWPU.
