Reminding young people of the importance of participating in the Seminars since according to the words of Our True Parents, a Seminar is a Training to cultivate our original mind. He emphasizes to the young people to give importance to our heavenly mind, let's eliminate all the bad things that we have kept up to now and through our good practices, love and serve others, let's keep good things within our seed of the heavenly mind. We need to clean ourselves, purify ourselves through self-discipline and training.
