WFP Austria helped out with an initiative called "Conversation Cafe on Sunday Afternoons" in order to help refugees in Austria to learn German. This was in partnership with "Brücke des Friedens" (Bridge of Peace) - Refugees helping Refugees!"

It is important for refugees to learn the language fast in order for them to be able to work in Austria, and this was a successful initiative where many people came wanting to learn German. The participants were divided into different groups in accordance with the language level they were at, and one or two volunteers were assigned to each group to help.
