

WFP Austria: Youth Changemaker Forum an Initiative of Filipino Youth

Renate Amesbauer
February 27, 2026

The Youth Changemaker Forum has been held for the second time. It is an Initiative of Filipino young people, with Mr. Andy Penafuerte as a main initiator, belonging to ENFiD- (European - network of Philippine Diaspora) calling on WFP Austria for support and cooperation. We called WFP Slovakia, the respective Lubica Magnusson, who is a teacher at Highschool, to contribute with her students. For them to prepare speeches about the SDGs was very good training.

Further among other participating Youth Groups, we brought in IAYSP - as a contributing partner!

The main purpose was to inspire and empower youth to express their visions and ideas, helping them to understand, that they are the changemakers of tomorrow, and co-creators of what the world will look like.

Besides lectures of professionals in the world of media, there was ample time during working groups to create projects (under the guidance of IAYSP-Peace Designer Program), and examples of cooperation between generations, realizing how complementary the talents and experiences are - on both sides!

This day's program led to very enriching experiences among all the participants.
