

## Rev. Yong Shik An visited Hungary

Budapest, Hungary, 30. October 2012

I would like to report that Rev. An as IW was in Hungary from last Monday till Friday morning 21-25th of October. He visited the Church centers and met the brothers and sisters in Budapest, Pecs, Szeged and Gyor cities. Also he met with individuals and couples as well. He shared the heart of True Mother and gave internal guidance according the situations of communities and based on the sharing with members.

He spoke about how and why God poured out his blessing to this age in History. Not before or not in the future, but this time. The only reason is True Parents! Korea could make a miracle not only because of the hard work and

filial piety of many Korean people to its nation to the last 60 years, but because God gave his blessing as well!! Because many people work hard and going through many sacrifices but still they cannot become successful. It is important to get God's blessing. God is focusing his blessing to places and people where the efforts are made for the sake of the LSC.

We feel very privileged that we could finish and offer this special 40 day period with Rev. An in Hungary. We felt the care and love of True Mother towards Hungarian family. Especially when there are so many turbulences in providence right now, we really felt the protection and deep concern of our True Mother who wants us to protect in all means.

Thank you very much!

Tibor
