

VISION 2020

Czech Republic

Strategic Plan for restoring the country VISION 2020 – Czech Republic

Goal – reaching the national level by 2020

Creating the environment for CI&G

Changing the image of our movement

Current situation in the Czech Republic

- FFWPU:

We could stabilize the membership to some level (according to KPI currently 161 members).
Need of system for taking care of struggling families. Tribal messiahship almost not-existent.
Members lacking confidence – need to be more involved in activities.

2ndGen care is developed, but still needs work.
Need to find ways, how they will join activities in the future.

Members are not tithing regularly. We are relying too much on income from properties.

Current situation in the Czech Republic

- CARP:

The good news is that CARP could come into existence and develop – currently 12 members. They support FFWPU by being involved in the organization of DP workshops.

To improve: CARP members should become lecturers.

Their outreach to young people is clever and efficient, but needs to find ways, to reach out to bigger numbers.

Need to establish a system, to raise up well new members. New members should be more involved on CARP level events, attend Sunday Service etc.

In the future need to find ways, to involve 2ndGen.

Current situation in the Czech Republic

- WFWP:

Was revived. Organized a few good events.

There is a need, for more sisters being involved and make plans and strategies together.

WFWP needs to work on a broader level.

Needs to work together with UPF – this should be realized in the PR committee.

Current situation in the Czech Republic

- UPF:

Stayed active over the years. Was able to stabilize some AfPs. Created few new contacts and AfPs. Holds regularly good events.

But UPF needs to work on a broader level and find ways to involve and empower more members.

Needs to work together with WFWP – this should be realized in the PR committee.
