 - Frankfurt, Germany
 - **Content:** True Father's legacy, Perspectives on good governance and more

Summer Motto 2013

L*L*L

pure is beautiful

L*L*L

pure is beautiful

“Where do God and human beings become one? In holy matrimony. They become one centering on God, who is the center of original true love. It means that God enters the heart of Adam and the heart of Eve. The marriage of Adam and Eve is the marriage of God’s body.

It is His marriage. The external position is the body, and the internal position is the mind. That is why God is directly our Father. His love, life and lineage are ours.”

(217-196, 1991.5.27)

We look forward to Summer 2013 - an opportunity to participate and take responsibility; to offer something for our European Blessed Families. This is the first Summer after the passing of our True Father. This is also the first summer following Foundation Day. It is a significant time in history; for our world, our movement, and also for each of our personal lives.

Father gave us lots of essential guidance in the Cheon Il Guk era which should provide and education for all time; we have the opportunity to be the first students. We want to dive back into the teachings of True Parents in this time – and discover the textbooks of Cheon Il Guk.

L*L*L pure is beautiful

Love. Life. Lineage. These are three words at the heart of Fathers' teachings, and how we understand them shapes our life course and spiritual journey. However, often we just hear the words and don't understand the depths of what they really mean. How do we understand God's perspective on Love, Life and Lineage?

'Pure is Beautiful' brings emphasis to a core message that we want to explore in new ways as a part of the Father's core guidance on 'Absolute Sexual Purity'. Father has created a tradition that does things right, and also opened up the way for all of us to find true happiness. How do we return beauty back to God, True Parents, our Parents, and Brothers and sisters? In this time, beauty is so misunderstood, yet we want to become truly beautiful people who can reflect God's divinity and our genuine true selves.

This is a time of transition, progress and building for the future. So it is key that we are deeply rooted in the teachings and traditions of True Parents, and an understanding of the Divine Principle. Upon that we can have a basis to support our families, communities, nations and continent of Europe. Through the summer activities, we want to come closer to understanding how we can make steps towards the ideal that God wants to experience with us at time in our lives.
