

Vision 2020 Sweden

Witnessing

We will continue with:

1-1-1 (one new member/ per member/ per year)

Tribal Messiahship

DP-lectures

Arranging ws and sending guests to European level ws

Continue and expand to witness in other parts in Sweden (outside of Stockholm, Uppsala and Malmö).

Every member should be able to give an introduction

By enabling and helping brothers and sisters to give an introduction lecture, we hope to encourage witnessing in the long run.

Types of introduction that every member should be able to give:

30 seconds - elevator speech

3 minutes - very short introduction

30 minutes - introduction lecture

We will arrange meetings and ws for everybody to practice

An AfP will also help us by giving courses in rethorics and speeches.

Family evenings

We will arrange family evenings to be able to invite guests.

This has been successful in the past and now we will revive this tradition.

The goal is to have 2 family evenings a month.

Music and Culture

We will make more use of music and culture in order to attract and take care of guests.

We need a choir in order to make the Sunday service more attractive. We need to find a choir leader first.

Drama Club - we will start a drama club, since drama and theatre can create a lot of joy.

The goal is to have 2 drama club meetings a month.

New educational material

We are creating new education material about family, marriage and love.
This can be a complement to DP.

The source is from the Japanese UC and it refers to TP's words and DP. We will also adopt it for Swedish circumstances.

We think it will be easier to invite people to lectures about family, marriage and love, and at a later stage introduce them to DP

Our own think tank

We will have a think tank that meets regularly.

We need to formulate and present a realistic vision of CIG that is possible for Swedes to understand and appreciate.

From these discussions and material that we will write and produce we will also create suitable practical projects.

Leadership training

We will invest in leadership training in order to take care of new members.

Media and PR

We need a group that takes care of the homepage, youtube channel, vimeo and facebook in a creative and supportive way.

Goal - at the end of 2013

Our goal for 2013 is to start and create a real foundation for each point mentioned above.

In the beginning 2014 we will go through this list, revise and hopefully expand them.

Goal - 2020

100. 000 new members

(CARP, FFWPU, AfP, WFWP)

With this number of core members we can influence Sweden and its politicians from a bottom-top perspective. This is more realistic than to expect we can influence politicians directly. We also want to have representatives in the Parliament that are members.
