Footprints of True Parents' Providence

EUROPEAN REGION

1965 - 2013

Offering of the publications of True Parents' Life Achievements

Preface by Rev. Hyung Jin Moon, International President

It is my utmost pleasure to see a series of books being published around the world in honor of the life-long accomplishments of True Parents, and in commemoration of the historic Foundation Day.

Before our missionaries did, True Parents went out to lay the conditions for the global outreach of the Unification Church. This began with the first successful sending of a missionary to Japan in 1958. After this successful launch of the first overseas mission, True Father sent missionaries from Korea to the United States in 1959. By 1965, the number of countries where Unification Church missionaries were working had increased to ten. In that year, True Parents undertook the first world tour during which Father visited 40 nations, planting soil and stones from Korea, which he carried in his suitcases, at 120 Holy Grounds in those nations. Thus the spiritual condition was made to expand the Unification Church to the next stage. By 1975 True Parents had sent Unification Church missionaries to 127 nations. Today, there are missionaries in more than 190 nations.

For over thirty-four years, True Parents themselves were missionaries on the front line in the United States, from where they continued to lay spiritual conditions for our missionaries worldwide. As numerous missionaries who worked under the constant threat of imprisonment or death have testified, True Parents would often appear to them in dreams and visions providing direction and comfort. Our courageous missionaries never felt alone because the Heavenly Parent and True Parents have been their constant companions. Indeed, while living in America, True Parents continue to travel to Korea and other nations to inspire our membership. Further, while in America, True Father would go innumerable times to the ocean to pioneer the Ocean Providence.

When, in the 1990s, True Parents ventured forth to Moscow and later to North Korea, they exhibited the intrepid heart of people emboldened by the love of God. It is this missionary spirit that True Father had exhibited from the start of the mission that he received through Jesus in 1935. Our missionaries around the world, some of whom gave their physical lives as offerings and many others who endured all manner of abuse and deprivation as well as spiritual attacks, have inherited and manifested this same spirit of absolute faith, love and obedience that derives from our True Parents and even God Himself.

Truly the Unification Church has been firmly and fruitfully planted in every continent and nearly every nation of the world upon the foundation of countless sacrifices and heroic efforts on the part of God and True Parents' children. I want to encourage you all to realize that no sacrifice made by True Parents and all the tens of thousands of Blessed Families around the world has been in vain. It is truly upon the foundation of the blood of martyrs that our church has risen and will rise even higher in the coming decades and centuries. Let all of us who have received the true love of God and the grace of absolute sex, the key that True Parents have given to each Blessed Couple to unlock the secrets of Heaven, continue to march forward to build Cheon Il Guk while embracing the entire earth.

Thanks to your courageous initiatives, today, we have the worldwide church foundation. It is truly beautiful to observe the way brothers and sisters have manifested dedication to the Will of God wholeheartedly and as a family. This must be a reason True Parents love our Blessed Families so dearly.

I hereby extend my strong wishes and heartfelt prayer that the worldwide Unification Church will continue to meet the expectations of Heavenly Father and True Parents, making further leaps upward.
