

International Day of Peace event in Denmark

Copenhagen, Denmark, 21. September 2014

We had UN International Day of Peace at the main hall of the Copenhagen City Hall. The title of the event was good, the place was good and four speakers were good, so 102 people including many VIPs gathered.

The program was: Welcome address by UPF chairman and the city minister - Video "Ambassadors for Peace" - Speeches by four speakers - Music by a peace group - Religious harmony ceremony by six religious leaders - Music by our three members - Talking and sharing.

Four speakers gave their presentation by their view point of peace, and they were deeply hit participants'

heart. And all participants were so inspired by the religious harmony ceremony. Two music groups' songs also caught very deeply participants' heart.

Therefore after the event many participants responded that they were so inspired and some of them want to join our meetings from now on. And the other good point is that about ten people told us that they wanted to become Ambassadors for Peace. So we will have a meeting for those people and those who are interested in Ambassadors for Peace in the end of this year.

Thank you very much.
