

Pre-HARP Workshop

Manantial del Corazon, Spain, July 14 - 20, 2018

By Sergio Asti

This year our pre-harp workshop took place in our working centre from the 14th to the 20th of July with 19 participants between 6 and 11 years old.

The participants could learn more about our Principles thanks to different

talks about the three blessings, the fall, the Messiah and many other different topics adapted to their age.

In addition, of course, they also enjoyed many sports, games and pool time, activities in which they could have a great time with their brothers and sisters, forging strong friendship relationships regardless of age or distance.

It was possible to breathe a great atmosphere in which participants could learn while enjoying a unique experience that they will surely want to repeat.
