Topic "Baha'i Religion"

Düsseldorf, Germany, 14. October 2013

On Oct. 14, 2013, we had an event of the UPF, our interreligious prayer meeting. We could win Mr. Daniel Popesco to introduce the Baha'i religion to us.

The definition of a believer of Bahai is a person, who accepts Baha' u' llah as revealer of God and finds in his teachings the remedy for the hardships of our time.

A Baha'i offers to all other religions the same respect. So in Baha'i parishes, they have regular readings of the holy scriptures of all religions. Through prayer and study of the Holy Scriptures, a person advances in spirit. Important parts of the religion are: equal treatment of man and woman, a high appreciation of families, as well openness and hospitality. Further characteristics of the religion consist on the best possible education for the

children and the endeavor for self-development. In addition the religion wants to further the unity of mankind. The lecture was very informative for all of us.

We shared our time in prayer for the actual situation in the world, as well as for personal issues, while meditative music was played.

We congratulated the attendees of the world peace blessing, on Oct. 14, 1982 in Korea, who celebrated their 31. Anniversary and presented them a little gift. When we had some coffee, cake and little goodies, they shared stories of how they got to know each other and how Rev. Sun Myung Moon matched them. It was very nice and interesting for all participants.
