

Beloved True Mother and dearest brothers and sisters,  
Warm greetings from Poland! We have just completed a 5 day international workshop, gathering over 50 participants and staff members from 11 different countries. We were able to come together and through various activities learn about the heart of a child, trying to understand the stories that shape us and to cultivate the hope and habit of always looking up. We had the honour of listening to amazing content shared by our lecturer William Haines as well as various testimonies and activities led by both 1st and 2nd generation alike. We were able to create a deep, focused and open atmosphere that enabled all the participants to finish the year 2019 in a truly unified way and start 2020 together with our Heavenly Parent, inviting Him to all that awaits us in the months to come.

I want to express my deep gratitude to everyone who has supported this workshop through prayers, advice and of course participation. Because of all of our joint effort we could create an environment where God was present and support our brothers and sisters in their paths to growth, understanding and deepening their relationships to our Heavenly Parent. I want to wish all of you the most wonderful year, full of connections of heart, love and the strength to fulfill all the goals and proclamations so many of us set in this time.

All the best and God bless you,  
Ola Brzyska, workshop director

We were able to create deep connections with ourselves and with our Heavenly Parent and True Parents through various sharing activities and a prayer evening

We also made sure to invest into our trust and connections through sports sessions and a challenge day

As well as focus on education through inspiring lectures, testimonies and answering questions
