Entela enjoyed and was moved by her various experiences in Leda very much. She wants to tell many people about Leda when she returns to Korea. She left by Aquitaban boat on January 5th together with Mr. Miyake who is returning temporarily and Mr. Maekawa who needed to renew his passport in Asuncion. Temporary student workers returned home and regular workers came back here because their vacation was over. Our labor work is pushing forward in earnest. Sixto Villaba brought his wife, Eulalia, to introduce her to Leda.
