January 24, 2023

Our team in Pusan Korea 1975 and the original flyers and ticket we used to invite people to hear True Father speak.

We traveled all over Korea and filled up one stadium after another.

It was an amazing experience.

At that time Korea was still very poor and most people had never met a western. They traveled by bus or bike and once in a while there was Hyundai Pony driving around. Almost every home had a picture of President Park Chung Hee hanging on the wall.
