## **From Rev. Inose - Invitation to the 4th Japanese 7-Day Workshop in IPEC**

Hiroshi Inose  
August 30, 2017

Dear Brothers and Sisters,

We had a very successful event with True Mother at Madison Square Garden on July 15. This cosmic level victory gave incredible inspiration and hope to the entire world. The next day, at the victory celebration centering on True Mother, Dr. Ki Hoon Kim reported that the three Japanese 7-Day DP workshops greatly contributed to make the internal foundation for victory at Madison Square Garden, and True Mother was very pleased to hear this report. I would like to express my deep gratitude to everyone who participated in various ways in support of the Madison Square Garden event.

Next week, on September 7, we will commemorate the 5th anniversary of True Father's Seonghwa. Let us reflect on the past five years, and offer repentance and gratitude from our hearts to True Parents, and make new determinations as we set new goals.

Let us make a fresh determination by becoming one in a heart with Dr. Kim, Vice President of FFWPU International and the Regional Chairman of North America, and the newly appointed Rev. Richard Buessing, President of FFWPU-USA, and with all brothers and sisters in the America. At this providential time, it is our pleasure to announce you 4th Japanese 7-Day Divine Principle workshop at IPEC in Las Vegas that will take place on October 24-31.

In 2012, when True Father left Cheon Hwa Gung in Las Vegas for Korea for the last time, he firmly held Dr. Kim's hands and said that education was the key to getting America resurrected. We realize how much Heavenly Parent and True Parents are expecting from this DP workshop, taught in Japanese language in IPEC.

Last year, just before the 40th anniversary of Washington Monument Rally, I received request from Dr. Kim to conduct a Japanese 7-Day workshop at IPEC, and so the Japanese 7-Day workshop began. Three workshops have been held so far, and more than 300 brothers and sisters have participated. Dr. Kim was very pleased with this, and reported it to True Mother. It also gave great inspiration to American brothers and sisters.

Special lecturers from Japan, Mr. Soichiro Nakamura and Mr. Masayuki Kachi, gave truly wonderful lectures filled with the heart and love of Heavenly Parent. Brothers and sisters who participated in the first three 7-Day workshops were able to return to the origin of God's words and the starting point of their faith, and experienced a big turning point in their life. They were able make a new start and determined to gain victory of Heavenly Tribal Messiah and VISION 2020.

### **(1) Significance**

The Japanese 7-Day workshop in IPEC this time will be conducted with much expectation of Heavenly Parent and True Parents. It is also a great revival workshop for victory of the 3 year course until 2020. This is a workshop for Japanese members in America to return to the starting point of restoration of the

United States and make a determination to start again. Our hope is that Japanese members in the US, who represent the mother nation, make a new start to fulfill Vision 2020, and establish a substantial victory as blessed central families and Heavenly Tribal Messiahs.

Another significant point is the venue - IPEC in Las Vegas. The providence of Las Vegas that began in 2008 is the present day Heung-nam providence, and Las Vegas is where True Parents offered much devotion and hard work to totally indemnify the entire providence. One fruit of such devotion is IPEC. IPEC is the Cheon Jeong Gun of the United States, and the place where Heavenly Parent and True Parents reside. Many brothers and sisters who participated in these workshops gave testimonies about their deep encounters with Heavenly Parent and True Parents while at IPEC. Externally too, it is the best place prepared for our workshops.
