

## Exhibition of True Father's Centenary in Sevilla, Spain

Maryvonne Jamois

December 14, 2021

As True Parents have been in Sevilla in 2009 for Peace Cup, we have been thinking that we cannot finish 2021 without bringing True Father's Centenary exhibition in this city in the south of Spain. We invited through an announcement in two local newspapers and also through some posters in the streets to advertise the event.

Around 40 people came during the day. Most of them took the catalog of the exposition and the autobiography and were interested to understand more about True Father's life. They were moved by True Father's work, the poem "Crown of Glory", the interreligious dialogue, and the book of World Scriptures. One person said: he is a person who has been living ahead of his time.

Sevilla is a city where many members joined at the beginning of the mission in Spain. Angel Guerra who is one of the first members in Spain and his wife Brigida helped a lot, as well as the family Gaye, both living in Sevilla.

We are very grateful for this opportunity to give testimony about True Father's life and vision. We pray so that those people who came can really feel the love of Heavenly Parent in their life and deepen their understanding of True Parent's work.
