Madrid, Spain, 23. – 27. July 2013

Miguel Angel López

We held a 5 day Divine Principle workshop for children from age 6 to 12 years old from the twenty-third of July to the twenty seventh. Most participants came from Barcelona area. Fifteen children participated altogether.

Most staff were young second generation monitors who took care of the younger children. Every day they woke up at 7.30 and went to do exercise and sports. Then they had breakfast and helped to carry each their plate to the kitchen. There were two lectures in the morning, before each lecture the participants were asked to pray. Some were shy but all on then prayed at least one, before the lecture and before a meal. After the lectures they divided into 3 groups centered on their monitors to discuss about the content of the lecture.

In the afternoon they was a internal guidance about several important points such as, learning True Parents names and some Korean words, respect to elders and internal and external cleanliness.

It's important that they get to know and befriend each other so that they can grow and identify as a group, know that they are not alone, understanding little by little who Heavenly Parents is, who True Parents are and our movement. They are truly the future of mankind, born from true Parents lineage and will create the heavenly kingdom of cheon il guk.
