

National Workshop for Blessed Families

Lisbon, Portugal, 4. – 5. August 2012

Sergio Neto

Like every year we organized blessed couples WS, time for learning, sharing and meeting others from all over the country. Participants came from around Lisbon but also from Porto, Lousada, etc. Since with some of them we rarely meet, the WS is the best time to catch up with our brothers and sisters. Although the content presented was concentrated still we had a great time and could learn a lot.

The sessions were presented by 4 brothers, Sergio Neto, Sergio Vieira, Paulo Nunes and Dan Gaina. The themes were: The Vision for the World after FD(President Kim), New Foundation, New Beginning, T.P. Holy Wedding, 21 year course, Origin of the Universe (various view points on God's existence) and Relationships between man and woman. We were very grateful to president Kim that he allowed us to share his lectures.

The presented concepts stirred hot discussions and enthusiasm. Since the style of the lectures were very different, everybody could find his own interesting point, thus creating better and harmonious sharing.

Since the amount of information was huge, all the participants could, in the end, get the complete set of the presented lectures and videos for further viewing and study.

We had also singing sessions to wake up and unite the spirits. The first night was concluded with a movie and the second day we had a special lunch where everybody brought different kinds of home cooked food.

The children of the participating couples had a great time playing together around Peace Embassy. It is hard to say who enjoyed more the WS, the children or the parents. They also presented various songs as entertainment.

The general atmosphere was alive and highly spiritual. The brothers and sisters were communicative and inspired. It was a very good time to get new inspiration and make new determination. The final session was followed by the cake, Tongil song and Ok Mansei.

Hopefully we could get in this way better inspiration to invest more until the Foundation Day and bring results for God and True Parents and honor to Portugal and our communities.
