

Memorial Service for Ancestors

Porto and Lisbon, Portugal, 2. November 2014

We respect and give great credit to the work done in Cheonpyeong and that is why once a year we make a national celebration with all the members, to remember, show respect and love and also to ask for help to all the spirit persons in our lineage.

As European traditions and Korean tradition are different, we made a mix and created our own tradition. We gather all the members and everybody bring a list with all the ancestors that they can recall, photos when available and the food that they want to offer. We encourage members to bring home made food. Also everybody offer a full bow and light an incense stick on the offering table. It is what we did this year too.

Along with the ceremony we presented the video about True Mother speech. It was a very special moment, enjoyed by all, in both communities. We could have a feeling of greatness and insurance that we are following a very bright path.

After the ceremony in both centres, Lisbon and Porto, we had lunch, enjoying the variety of foods and sharing impressions with enthusiasm. It was one of the best celebrations ever and that gives us the energy to work and widen the community.

In the end the donations were gathered and are to be sent to Korea, as offering.

God bless you all, Sérgio Neto
