About 80 members met at the headquarters of Lisbon in Barcarena to participate in the one day workshop, the Holy Wine ceremony and to receive the Four Great Holy Items. Once again True Parents give us so much blessings.

In an beautiful environment filled with hope and new resolve all brothers and sisters appreciated the education they received through videos, HDK material and lectures about True Parents lives and works and our responsibilities. An atmosphere of repentance and determination to become masters of Cheon Il Guk and loyal representatives of our True Parents was created.

After two days of education, all families who completed the devotion conditions, could leave behind their past mistakes by offering their confession papers and burning them. We pledged and made a new promise to our Heavenly Parents by receiving the special grace through the holy wine as renewed families. 26 Portuguese families receiving the Four Great Items of Cheon Il Guk. We will have some more ceremonies before foundation day.
