

## WFWP Youth meeting in Rome, Italy

Elisabetta Nistri  
February 25, 2016

On 25th February at the WFWP headquarters in Rome, a meeting was held to organize the upcoming local activities with the young women who actively collaborate with WFWP.

Elisabetta Nistri, WFWP Italy President, explained the understanding of WFWP that in order to take care of both the needs and wounds of humanity, women need to be empowered to grow and develop, and help realize a better world.

Elisabetta then presented the new WFWP flier and thanked the girls for their excellent work running the facebook page WFWP Italy. She then motivated them to take on more responsibility for any project that may be of personal interest.

From this mind mapping activity several ideas arose:

Internal and External Beauty; Sexual Purity as an Adolescent; Mother and Daughter relationships; Rent a Uterus- The use of a woman's body in society; Attraction and Love; where are the boundaries?; Beauty in every phase of life - Make-up to add value, not to hide it.

We decided that the next meeting will address Mother and Daughter. It will be on 16th April with the title "Let's learn to express our internal beauty". In the first half of the meeting, the young ladies will encourage those present, utilizing their experiences and a presentation video, to discover their own value of character and personality, learning to have self-respect and respect for their bodies. In the second half, in collaboration with some beauty guru friends, they will offer some practical make-up advice.

In May, they want to celebrate Mother's day, inviting all mothers and daughters to come to the event.'
