On 19 May 2016, WFWP Italy had a leaders meeting in Milan to share the Report of the European WFWP meeting in April in Prague. They shared experiences, realizations, and difficulties they face in their respective communities. Present were: Elisabetta Nistri (National President), Gabriella Mieli (Vice President), Flora Grassivaro (President WFWP Triveneto), Giannina Ravaglioli (President WFWP Bergamo) and Alessia Preciutti (National Secretary).

It was very nice to share our thoughts for the realization of our vision through WFWP.

Elisabetta Nistri then went to visit each of the communities in Turin, Bergamo and Milan. She wanted to share about the activities of WFWP Rome and to show how WFWP can be a very useful tool to attract interest and the attention of many people and that through the WFWP we can substantially contribute to world peace.

For this occasion, Elisabetta had prepared an inspiring letter that Rev. Moon wrote to his wife, Dr. Hak Ja Han Moon, many years ago, at the start of their mission, when he found himself in America for a tour while she was in Korea. In these letters, he expressed his affection and gratitude for her hard work and encouraged her to become a great role model for all women.
