Ambassador for Peace Virginia Vandini, counsellor and President of 'Feminine Values', was invited by the WFWP Italy President to give a lecture about "How to discover our one Uniqueness, the ability to nurture, trust and respect oneself and others" to the Harp workshop for young people.

They were very inspired to listen about respect and trust for their value despite all the difficulties that adolescence is bringing, and were eager to discover their unique original nature given by God.

Virginia Vandini was very inspired to see how the youngsters were very interested in challenging themselves.
