

## Easter 5 Day Divine Principle Workshop

Prague, Czech Republic, April 18 - 22, 2019

By Eva Pejkofski

I am happy to write a final report about Easter 5day DP WS, held at Prague HQ in the Czech Republic.

It is an annual WS, which is organized always in the Easter time, and usually a lecturer from another country is invited - the WS is held in English. This year we were happy to invite Mr. Dale Rose from UK. He was the main lecturer and covered 2 full days of the WS. Third day was a culmination of the whole content and lectures were given by Cvetko Pejkofski (Czech WT leader) and Martin Slezak (Czech vice-NL). One of the participants shared that in the end of the third day she thought, based on what they have heard so far, that each of these three lecturers reminded her of one of the three aspects of human nature - first emotions, then intellect and finally will.

In the last two days of the WS, participants heard about the recent activities of True Parents movement such as YSP and SunHak Peace Prize, and listened to a testimony on How is Principle alive in my life by Martine Masner (European WT department director).

The reason behind organising this WS is a need of a deeper education for our guests who are witnessed during our daily WT activities (supported by CARP social events and lectures), and also for our second gens to receive a DP education. We have guests who are coming to our WT centre to study Divine Principle one on one on a daily or weekly basis, and through this WS we are giving them a chance to dig deeper and make a commitment.

Among participants were 8 guests, 16 second gen. participants and all together with staff we were 36 people from 4 countries (Czech, Austria, Germany and Switzerland).

All participants were happy and grateful to be able to join the WS and expressed a joy after being reminded about Heavenly Parent's heart throughout the ages. The highlight of the WS was probably the moment, when one of the lecturers boldly announced about Mr. and Mrs. Moon being the Messiah, coming to fulfil what Jesus could not fulfil. There was a very high and excited atmosphere in the room in this moment.

We heard also two beautiful and hopeful presentations about True Father's and True Mother's life course.

One of the guests shared in her reflection, that during the WS she received some message from a friend. Before she attended this WS and before she started to study Principle in the WT centre, she would probably laugh about such a message and find it amusing. But now, she was actually rather annoyed by it. She sees a substantial change in her heart after she started to study DP. Also, a parent of one 2nd gen. brother shared, that recently their son is having a complicated relationship with his family. But during this WS, this young brother was texting home, how wonderful the WS is and how much he can profit.

Soon we will prepare a video capturing this WS. Photos attached.

On behalf of all staff, guests and our nation, I thank to True Parents for their breakthroughs and historical discoveries, which are life-changing for all of us!
