

Farewell to our beautiful daughter Brandi Rae Percival (Woods)

Clint Woods
September 11, 2015

Dear all Ocean loving friends, leaders, and families.

I wish to take a moment to share with you the news that our beloved nearly 33 year old daughter Brandi Rae Percival (Woods) has transitioned to the heavenly realm from an unexpected accident just a few days ago.

She left behind a very loving and devoted husband Shawn Percival, and beloved little boy Zander while I was in Korea attending our church founder's 3rd anniversary of his passing, and helping to support important efforts to secure our nation, and our oceans worldwide.

Within that context I wish to thank those of you who sent or called expressing your condolences and heartfelt prayers and support for her transition to heaven and for those remaining behind.

Additionally, I wish to dedicate all of my latest efforts in the Oceanic arena in America and overseas to Brandi Rae in honor of her great love for the ocean and all of creation; something we shared in common. She always wanted to know about and celebrate with us at Ocean Providence International and National Ocean Challenge Program Kodiak regarding any progress, stories, and victories related to our work.

Brandi was truly a great lover of all things in creation. From a small child, she loved to fish and catch Dungeness crab with her father Clint and family, and enjoy the fresh seafood together. She and her husband Shawn and little son Zander had just moved to Florida to enjoy the beaches and wonderful oceanic environment there. Brandi always promoted great care and love for animals and all living things, and was a person that always brought total kindness and the plus to other's lives.

I wanted to offer all the chance to know her briefly, if you never had the chance, by sharing a link to copy to your browser for a short YouTube video of her wedding to Shawn 9 years ago, and to her Facebook page. Those things display accurately what a very special and loving person she always was and is in her new heavenly home. As a person of great faith in our heavenly parent always, Brandi

will surely keep a place for those of us who come along later, just as was Brandi's special request of her beloved Grandma Woods upon her Nov 2014 passing.

On behalf of our family, our oceanic teams, and our supporters, may Brandi be at peace and know that she will always be treasured and remembered by all who love her. And, may Shawn and Zander have all the support and comfort possible during this time of transition.

Amen and Aju,

Clint
